PROJECTS

Financhill | <https://github.com/GabeSucich/budgetingapp>
<https://desolate-sierra-38032.herokuapp.com/>

- For this project my team and I created a budgeting application that manages your income, expenses and daily purchases.
- I created the page that used api calls to post data to the SQL tables. I also did the user validation, styling and helped with the dashboard page.
- Javascript, SQL, express.js, passport, sequelize

L.I.F.E | <https://github.com/AidanSweeny/life> | <https://aidansweeny.github.io/life/>

- For this project my team and I created an application that uses multiple api calls to gather data from different apis, and display the queries.
- I created both the games and movies pages. I did none of the styling, however, all of the queries and inputs were created by me
- Javascript, HTML, CSS, JQuery

WeatherDashboard | <https://github.com/AidanSweeny/weather-dashboard>
<https://aidansweeny.github.io/weather-dashboard/>

- For this project I created a weather dashboard that uses an API call to gather weather data and display it to the user
- I created the whole project
- Javascript, HTML, CSS

EXPERIENCE

Food-Runner/

Sunnyside Bar and Grill

June 2019 – August 2019

Tahoe City, CA

I worked as a food runner at the restaurant Sunnyside for the summer, where I learned the importance of communication, teamwork, and hardwork. The restaurant was always packed, and it was my responsibility to ensure the timeliness, and quality of the food before it was served to customers.

Cashier, Food-runner, and Busser/
July 2018

August 2017 –

MH Bread and Butter

San Anselmo, CA

I worked as a cashier, food-runner, and busser during my time at MH Bread and Butter, where I learned how to be a leader and a follower in pressure situations. I was able to direct people on what to do, when a situation arose, but also had to listen to what was needed of me by my boss.

EDUCATION

Bootcamp Certificate: UC Berkeley, Berkeley, San Francisco

Colby College: Computer Science Major, Italian and Astronomy Minor
